

10 Setting up a markup - B2C White Label Travel Portal

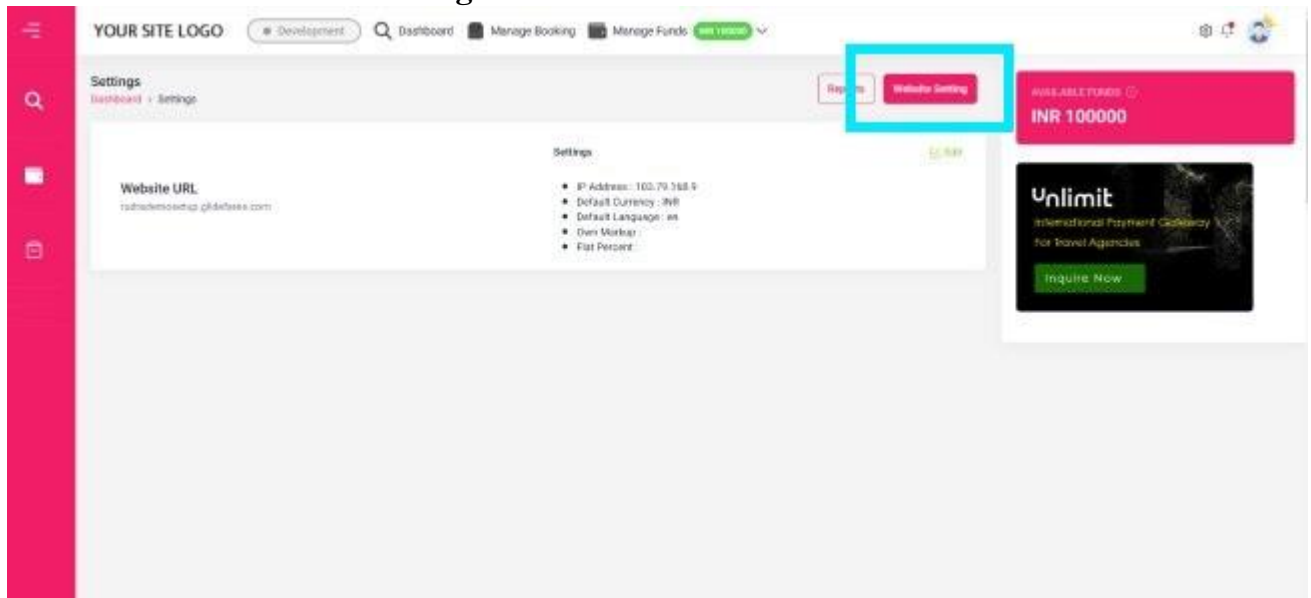

Easy markup management - Setup a markup on each module bifurcatedly in percentage or flat

- Add a separate convenience fee apart from markup

1. Login to your back office and navigate to **Settings**.

2. Then click on **Website Setting**.

3. Click any **module** in the left panel to setup a markup. In this example, we will setup a markup in Flights **module**.
