

12 Advance settings - B2C White Label Travel Portal

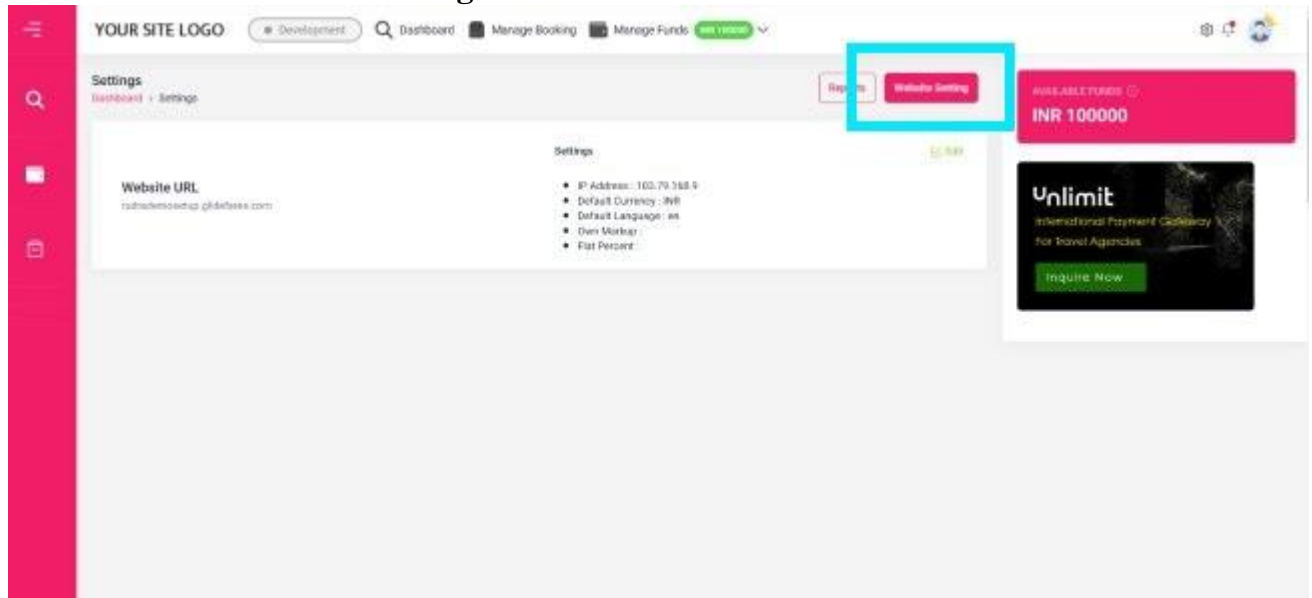

Take total control over the design by writing your own css through Advance settings.

- Exclude " style " tags

1. Login to your back office and navigate to **Settings**.

2. Then click on **Website Setting**.

3. Then click on **Advance Setting**.

- **Theme Csx:** The css written would be applicable on the theme part, ie, Header, Footer, home page and informational pages.
- **Plugin Csx:** As the name suggests, it would be applicable on the booking engine elements, ie, Search box, Search Results, Booking and Confirmation pages.
